

Heat Your Business, Shop or Barn

with a WoodMaster Outdoor Wood Furnace

Built to heat entire buildings, garages, workshops, and other spaces, plus hot water systems. Features include:

- ✓ **Easy, Convenient Operation** - Furnace operation is made easy with the Digital Electronic Temperature Control (ETC). One location for operating furnace settings.
- ✓ **Safe** - No fuels enter the building which limits smoke, soot and fire hazards.
- ✓ **Durability** - Long-lasting, stainless steel firebox.

In the U.S., Traditional outdoor wood furnaces are for non-residential use only.
