

Traditional Titanium Series

- A Fan-induced draft** allows faster water temperature recovery.
- B Smart heat baffle** reduces exhaust escaping out fuel door and minimizes heat loss through chimney, plus reduces stack temperatures up to 53 percent in the closed position.
- C Exterior light** for better visibility at night.
- D Thick R38 fiberglass insulation** provides non-flammable, secure water jacket wrap. Insulated shell keeps heat in and maintains cool-to-the-touch exterior.
- E Free-standing design** eliminates need for a concrete slab and allows year-round installation.
- F Large front door(s)** for easier loading and cleaning, plus door(s) stay cool to the touch.
Large rear door provides easy access for plumbing, multiple hookups and maintenance.
- G Ash auger** (optional) eliminates shoveling ash and hot coals from the furnace, plus optimizes performance with an air scoop built into the grate that diverts air under the fire.
- H Long Life** with the titanium-enhanced stainless steel firebox. Impervious to corrosion from high-moisture wood, creosote and condensation.

In the U.S., these appliances are for non-residential applications only.
